PROFESSIONAL EXPERIENCE

Frontend Developer, Banao Technologies

Aug 2022 – present | Bengaluru, India

- Developed responsive **web designs from scratch** and with frameworks like Bootstrap and Tailwind CSS, resulting in improved user experience and faster page load times.
- Implemented Redux and Context API for **efficient state management** in projects, leading to improved application performance and rendering speed.
- **Integrated payment gateways** (Razorpay, Stripe) and Google Maps API, resulting in increased conversion rates and streamlined user interactions.
- **Elevated user engagement** on Banao Technologies' website by 25% through the implementation of Google Analytics v4 and a website revamp using Next.js. Integrated a Headless CMS (Strapi) for Blogs, **enhancing both performance and SEO scores**.
- **Led the design and development of the internal product** and the Assessment Platform (MERN), which resulted in **faster training of interns internally** for the company.
- **Backend** - Also Worked on backends of 2 projects in Nodejs, **Implemented Stripe Subscription in a project enabling revenue stream**, Authorization and Authentication with Google and Facebook, Automated Emails reducing manual work.

Frontend Developer Intern, ForeignAdmits

Jan 2022 – Mar 2022 | Bengaluru, India

- Worked on the company's own consultancy and services product developed in Angular, Typescript, BootStrap. Collaborated with the team in the **Agile methodology** environment.
- Built landing page, profile page for Mentor User, dynamic dashboard for all different types of users **from scratch figma designs**.
- **Implemented new features** like calendar, and Jitsi video meetings, also implemented forms with Formly library and data tables.
- Daily Tasks included fixing bugs, refactoring existing components and adding new components.
